December, 2000

TO WHOM IT MAY CONCERN

This memo is to advise that Bryon Lewis worked at Enron as a third-party contractor in the capacity of Sr/Lead Designer from December 8, 1997 through October 14, 1998. During this time, he supported our Design team in the following areas:

- Electrical design
- Design of an automation project which included a new PLC, all new instrumentation, rebuild of the control building, all new MCC's (480V AC, 120V panels, DC motor starters) and remotely connecting numerous yard valves to the PLC
- Inspection of the vendor panels (PLC & MCC) before they were installed
- P&ID's
- Pneumatic drawings
- Field trips for Electrical Scoping of Projects as well as field trips for Electrical As-Building
- Worked with Operations personnel to determine Design requirements

In addition, he supported our Autocad needs through:

- AutoLisp Programming
- Web Page Programming
- Autocad Troubleshooting
- Autocad Menu Design and installation
- User support Person
- Used as our Autocad interface person with Network personnel

Our project work was coming to an end in October which necessitated the release of our third party support.

Sincerely,

A handwritten signature in blue ink that reads "Norma J. Hasenjager".

Norma J. Hasenjager
Sr. Human Resources Representative
